

**The National Consortium of Telehealth Resource Centers** <https://telehealthresourcecenter.org/>

*The NCTRC is a national organization providing support for telemedicine across the United States. We are happy to provide information on HIPAA and Consenting while using Telehealth. Visit any of the links below for more information or your locale office.*

**Toolkits for Providers.** The [Mid-Atlantic Telehealth Resource Center](#) has a great toolkit for providers getting started with telehealth and the COVID-19 specific policies. About halfway down this webpage is a section on HIPAA and a helpful video that lays out the COVID-19 allowances. If they want to see how best to integrate the consent process into their workflow, this [diagram](#) may be helpful. See steps 1-5 for a path for incorporating the consent process.

**Sample Consent Forms.** For sample consent forms, the [“Sample Forms & Templates”](#) page from the [Upper Midwest Telehealth Resource Center](#). There are lots of helpful sample forms on this page including a very simple and straightforward one developed by [AHRQ](#), [linked here](#).

**State-level Telehealth Policies.** The [Center for Connected Health Policy](#), tracks state-level telehealth policies. There are medical records requirements for telehealth visits.

**NCTRC Telehealth Webinar on Privacy and Liability.** A [webinar](#) from November 2020 on addressing the privacy and liability issues for delivery of healthcare through telemedicine.
